

# ACCESS INSIDER

Brought to you by: Access.Architectural, LLC

## ACCIDENTS HAPPEN THE NEXT CHAPTER

Pat and Peggy found themselves in need of an accessibility home evaluation and possibly some home modifications after a tragic accident. They contacted Access.Architectural to help them assess their accessibility needs and to offer any suggestions for modifications to their home.

Access.Architectural helped them with their concerns over emergency egress as well as wheelchair access to one of their home's restroom facilities. We all met (at the hospital, and later at their home) to develop the best possible design.

Then a Contractor was chosen through a Bid Process and construction began under direct supervision by Access.Architectural.

## THE NEW ADAAG ARE YOU PREPARED?

Access.Architectural offers accessibility related Presentations to assist your firm or business with knowledge and educational opportunities regarding disabilities and accessibility.

Presentations are currently available regarding, "The Changes to the New ADAAG"

The new ADA becomes effective on March 15<sup>th</sup>, and will be required by 2012.

Do you know what changed? Could you use a refresher course?

# SEEING IS BELIEVING

## A COMMUNITY OUTREACH PROJECT

Access.Architectural, LLC, and Photo-Form Tactile Graphics are collaborating on a project that will allow blind and visually impaired users to 'see' with their hands and fingers. By means of a patented process, 2D images are transformed into 3D relief tiles.

Access.Architectural would like to see these tiles made and located across the United States to allow the blind and visually impaired to "see" and experience National Landmarks along with their sighted friends and family. Access.Architectural is actively seeking individuals and corporations to join a Planning Committee to make this project a reality

Learn more about this rewarding project at [www.accessarchitectural.com](http://www.accessarchitectural.com), and click on Announcements, then Giving Back.
